WARRANTY & SERVICE

Dear Customer,

A warm welcome to the “Plato Family”, and congratulations on becoming a proud owner of Hi-tech Plato Products.

All Plato products are an outcome of continuous process of research & development. We are confident that you will be satisfied with the quality of Plato products.

However in most unlikely event of any problem you may contact any of our regional offices or notified service provider, for appropriate guidance.

PLATO Products used in normal residential and non residential commercial settings are warranted to be free of defects in the materials and workmanship for the period of time set forth in the warranty coverage chart as detailed in Warranty Card, commencing from date of sale of PLATO Products to the original purchaser (“Warranty period”)

Note. See Warranty Card for Terms & Conditions.

You may send in your complaint or email at info@platobath.com or can call us on **1800 120 000 700** from 10am to 6pm on all working days except Sunday & Public Holidays.

PLATO'S ORIGINAL TECHNOLOGY

At plato Faucet, we believe that fancy looking machines are not sufficient.

Superior craftsmanship cannot be achieved without skilled workforce and experienced leaders. With that in mind, we made the decision to locate our production at the heart of the Indian Faucet Cluster, home of the best faucet manufacturing. Here, companies specialize in one trade and excel at it.

There is no short-cut to quality. Managers and employees truly care about reputation and excellence.

MACHINING

Years of expertise in world class machining
 High speed precision CNC
 Multi-axis machinery
 Clearly defined dimensional tolerances
 Online metrology control

CASTING

Sand Casting
 Gravity Casting
 Low pressure die casting
 High grade brass ingots
 ACS, DIN, Low Lead brass available

POLISHING

Highly skilled technicians
 Stable long term workforce
 Constant visual monitoring

FINISHING

Deep and Shiny Chrome platings
 PVD Coating

ASSEMBLING

Assembled with care
 Attention to details
 Water ways cleaned to remove casting dust
 Torque test on cartridge nut
 Protection used during handling
 Constant visual control

CONTROLLING

100% water test on finish product
 ISO 9001: 2015 System implemented

why choose plato faucet ?

www.platobath.com

EXQUISITE FINISH

All plato Faucet Collection and accessories are made with triple plated finish and hand polished to perfection.

OUR INNOVATION

Special Solid Brass Ring with both side rings for extra long life

Special Brass safety seal for 3 Lakh operations.

plato Internal fittings are made of Brass, which has high tensile strength & is corrosion resistant. With an **Extraordinary life of 300000 Cycles.**

plato is proud to offer fittings engineered for a 10-years warranty* See Warranty Terms

flow, stop and go®

AERATOR

For a splash free stream with water-saving technology and easy clean silicone construction that eliminate lime & scale build up.

RAW MATERIAL

The faucet body & handle in all plato faucets are made from the highest grade lead free brass ensuring long lasting durability.

FORGED BRASS PRESSURE REDUCING VALVE (PRV)

Technical data

Main features and materials

- Compliant with Standard EN 1567
- Sound class II - Lap [dB (A)] < 30
- Body: CW617N (UNI EN 12165) nickel plated brass
- Piston: techno polymer reinforced with glass fiber
- Gaskets: EPDM peroxide
- Seat: EN 10088 - 1.4305 stainless steel (AISI 304)
- Spring: EN10270-1 SM zinc plated steel

Field of applications

- Max. working pressure (PN): 25 bar
- Outlet pressure regulation range: from 1 to 5,5 bar
- Outlet pressure factory set: 3 bar
- Working temperature range: 0 °C (no freezing) to 130 °C
- Compatible fluids: water, glycol solutions (with 50 % max. concentration of glycol), compressed air (except 2")

21 CLICK CLACK SYSTEM

Why The PLATO'S
21 Click Clack System
is innovative

The Plato 2 in 1 Click Clack system is the innovative patented system made in Italy specifically designed for the world of click clack wastes. What distinguishes the 2 in 1 Click Clack system from the other solutions already in the market, is the offer of 2 products in 1: an opening and closing mechanism (Click system) already applied on the plug, replaceable with the Always Open linchpin to revert the waste into "Always Open", all in one package. It's a universal solution for washbasin with and without overflow. The tightness gasket on the mechanism transforms the plug's cap into a decorative cover, available in different materials and finishing.

WASTE COUPLING BRASS

TEFLON TAPE

PLATO THREAD SEAL TEFLONE TAPE (PTFE)

When covering a thread portion for the joint seal Plato thread seal tape should be rolled only 4 times (Varying from thread to thread) whereas other thread seal tapes are rolled 12 times because thread seal tape from PLATO is 3 times thicker than other thread seal tapes.

PTFE (20mm) Heavy
4101 - ₹ 48/-

PTFE (12mm) Heavy
4102 - ₹ 33/-

Why thread seal tape use :

Thread seal tape cover all thread filing the gap between thread to thread minimizing chances of leakage (see diagram)

NO CHANCE OF LEAKAGE

Thread Seal Tap VS Dhagha

Thread seal tape cover all thread filing the gap between thread to thread minimizing chances of leakage (see diagram)

HIGH CHANCE OF LEAKAGE

EXTENSION NIPPLE FORGED BRASS

Extension Nipples are also available in 20mmx15mm thread size on order (Example 20mmx15mmx25mm)

Extension Nipple Regular without Flange 25mm
4001 R - ₹ 102/-

Extension Nipple Regular without Flange 40mm
4002 R - ₹ 150/-

Extension Nipple Regular without Flange 50mm
4003 R - ₹ 198/-

Extension Nipple Regular without Flange 75mm
4005 R - ₹ 300/-

Extension Nipple Heavy without Flange 25mm
4001 - ₹ 135/-

Extension Nipple Heavy without Flange 40mm
4002 - ₹ 183/-

Extension Nipple Heavy without Flange 50mm
4003 - ₹ 225/-

Extension Nipple without Flange 65mm, Heavy
4004 - ₹ 255/-

Extension Nipple without Flange 75mm, Heavy
4005 - ₹ 324/-

Extension Nipple without Flange 100mm, Heavy
4006 - ₹ 396/-

Extension Nipple without Flange 150mm, Heavy
4007 - ₹ 555/-

Extension Nipple without Flange 225mm, Heavy
4008 - ₹ 741/-

Installation Guidelines

Pre-installation Guidelines

Better use 25mm/ 31 mm pipeline instead of 20mm to ensure better pressure of water. Lay pipeline straight & vertical to get maximum water pressure.

Keep the number of bends in the pipeline to the minimum, to get good water pressure.

All pipelines should have Vent Pipes to ensure smooth flow of water and avoid air locking.

Hole-to-Hole distance for mixers should be standard 165mm for trouble free installations of mixers.

Outlet of Storage Tank should be minimum 10 cm above the bottom to avoid dust, sand and foreign particles flowing with water into the fittings.

Clean the overhead tank and pipelines properly before fixing the fittings/taps to avoid sand, cement & other particles clogging the taps.

Don't use excessive force to tighten the fittings. Excess length of the threads should be cut to suit the space inside the elbows; also wrenches and spanners should be softened by using plastic or cotton inserts before tightening the taps.

Test all the concealed fittings for leakage before plastering and fixing of tiles.

Please get your Plumbing done by experienced plumbers only.

Post-installation Guidelines

Cover the taps / mixers with poly pack after installations, till they are put to regular use, to protect the finish from dust, stains, paint, chemicals and damages.

Don't use harsh cleaning agents like acids, alkalizes and abrasives. Use soft sponge or wet cloth with soap water or 10% diluted vinegar to clean the fittings. However fine chalk powder can be used to shine the taps.

Clean / Change the aerators (Foam-Flow) at regular intervals to maintain good flow of water.

Fittings should be operated gently while turning on/off. Over-tightening gives friction to threads that reduces the life of the fitting.

Do not lean or put excessive weight on taps. Excessive weight can damage or even break the taps.

In case of repair or replacement, insist on genuine PLATO spares from our authorised dealers.

The following chart gives you an indication of the minimum required for getting a good performance from bath fittings.

S. No.	Product	Min. Press. In Lb.Sq.in	Min. Press. In Kgf/sq. cm	Min. Press. In Terms of Height of Tank*
1	Q/T, H/T or F/T fittings with Single Spindle	10 PSI	0.7 Kgf	07 meters
2	Q/T, H/T or F/T Mixers	15 PSI	1 Kgf	10 meters
3	Single Lever Mixers	20 PSI	1.5 Kgf	15 meters
4	Single Function Showers	15 PSI	1 Kgf	10 meters
5	Multi Function Showers	30 PSI	2 Kgf	20 meters
6	Flush Valves and Flush Cocks	10 PSI	0.7 Kgf	07 meters

* Kindly note that these figures are merely indicative. Water flow rate depends on various other factors like Water Salinity, Dissolved constituents, bends in pipelines, diameter of pipes used.

Internal Fittings

Half Turn (New FRT Technology) / Quarter Turn Fittings

PLATO internal fittings are made of Brass, which has high tensile strength & is corrosion resistant.

PLATO internal fitting is made of **Drop Forged Bonnet**, the sturdiest form of casting, Valve & Spindle are made of extruded rod whose composition is lab tested. To establish the quality of PLATO internal fitting Performance Test is carried out for **One-Lakh Operations**. Hydraulic Pressure Test is also performed on Bonnet for leakage test.

Advance international **Double 'O' Ring** protection is provided at the bottom of the spindle to stop water entering the threads; this keeps threads lubricated resulting in lesser wear & tear and longer life.

Grease used for Threads as well as 'O' rings are Silicon based Compound **Food Grade Grease**, which are specially made for Metal-to-Metal and Rubber-to-Metal contact as per requirement.

Ceramic Disk is also tested for Alumina and Silica content, we test that Alumina content in our ceramic disk should be 95% to ensure its long life, Air Compression pressure test is also performed for leakage test. Ceramic Disc Fittings are Tested for **3 Lakh Operations**, on Good Water.

Single Lever Cartridge

Single Lever ceramic cartridge is used in 40mm diameter to ensure maximum water pressure.

Ceramic Disk is also tested for Alumina and Silica content, we test that Alumina content in our ceramic disk should be 95% to ensure its long life, Air Compression pressure test is also performed for leakage test.

Warranty Terms

Dear Customer, thanks for choosing PLATO, Your PLATO product is warranted for 10 years against any manufacturing defect, however warranty is subjected to following terms and conditions. (See warranty card for Details)

- Maximum liability of the company is limited only to repair or replacement of the piece.

- In all cases decision of the company will be final and binding.
- **All Imported items are made for soft use only. These should be used with distilled or clean water only.**
- **No Replacement for Imported items.**
- All disputes are subject to Delhi Jurisdiction only.

Maintenance Instructions

Always dry the surface water from faucet surface by a soft cloth. Allowing water to evaporate on the surface can lead to build up of mineral deposits. Cleaning with a damp non-abrasive sponge and buffing it dry with a clean soft cloth should help keep your faucet looking beautiful. To remove spots, use warm water and a soft, damp cloth. Hard water stains may be removed using a 50/50 solution of white vinegar and water. Make certain that you rinse thoroughly with water afterward.

Avoid using the following which can Damage your Finish

1. Avoid industrial cleaners and abrasive cleaners, such as those used for toilet Bowls, Green scotch-Brite heavy duty scrub sponges, Scrubbing Bubbles Bathrooms Cleaner and Lysol basin tub, soft scrub, and Tile Cleaner.
2. Avoid products containing hydrofluoric, hydrochloric and/or phosphoric acids and caustic agents.
3. Avoid harsh abrasives, polishes and bleach-based Cleaners.
